REGARDING THE SALE OF SCHOOL LANDS

SECRETARY CASSIDY OF THE SCHOOL LAND DEPARTMENT ISSUES STATEMENT.

Practically All of the Public Building and Indemnity Lands Are Held by Lessees.

Guthrie, July 10.—Many inquiries are being received by the school land department relative to the sale of the school lands of the state. The information principally asked in these inquiries is the time, manner and place of sale. In order that the public may be advised as to what steps are now being taken by the department looking towards the sale of the land, secretary Cassidy of the school land department has issued the following statement:

"The action of the commissioners of the land office on April 30, 1909, directing the department to take the necessary steps looking forward to a speedy adjustment of the 1908 appraisal, precludes at this time the initiating of any of the work necessary in the sale of the public building and indemnity lands. Under amended senate bill No. 1 there are four classes of lands to be sold.

1st. The new college land granted to the state under Section 12 of the Enabling Act and containing 1,050,000 acres.

2nd. Public building land.

3. All indemnity lands.

4th. Townsite lands being lands which were at the time the Sales bill went into effect, held under leases for townsite purposes.

Practically all of the public building and indemnity lands are now held by lessees. By virtue of the terms of the Enabling Act and the bill authorizing the sale of these lands, the lessees thereof have the preference right to purchase the same at the sale at the highest bid. Before these lands can be sold it is necessary for the commissioners of the land office to officially approve the appraisal and the board cannot approve the appraisal until all complaints made against the same by lessees have been investigated and acted upon by the board.

The department is now receiving complaints and making a departmental investigation of the same and in a very short time adjusters will be sent into each county for the purpose of making a personal investigation of complaints which cannot be adjusted by the department. It is evident that this work will consume some little time. In fact, it is nearly impossible to determine just when the work will be completed. As rapidly as the adjustments have been made in a county, the appraisements of the school lands in that county will be presented to the board for its action and if approved by the board, steps will be taken at once to begin the sale.

A sufficient force will be placed in the field to perform the adjustment work as rapidly as possible. The department is now taking the necessary steps looking forward to an early sale of the New College Lands. These lands are situated in the northwestern part of the state principally and were never leased under any laws or leases which gave to the lessees any preference right. The old Territorial board issued special leases to these lands which expired between Jan. 1st and April 26th, 1908, without any preference rights to either renew or purchase in the event of sale.

The First State Legislature by an act, extended the time of expiration of these leases under the same terms and conditions to Jan. 1, 1909. On Jan. 1, 1909, all leases held on New College lands expired and the lessees had no preference right to either renew or purchase in case of sale at the highest bid; hence at this time there are no lessees upon this land and the sale of the same can be made without reference to any preference right as are connected with the public building and indemnity lands. Under the law, the commissioners must classify the New College lands and after such classification the same must be advertised in at least three agricultural journals of national circulation and in not less than one newspaper of general circulation within the state and also in not less than one county paper of general circulation within the county within which the lands are situated. The advertisement in the agricultural journals and newspapers must be at least three is-

sues. In addition to the newspapers advertising the commissioners are required to prepare in pamphlet form for free distribution a complete list of the lands to be sold by counties and townships giving a brief description of each tract, showing the appraisal thereof.

The sales department in charge of John N. Shepler has been organized and the land titles of the New College lands are now being transferred from the lease to the Sales department. Just as soon as the transfer has been made the sales department will take up the work of advertising in the newspapers and preparing the pamphlets. It is impossible at this time to state just when the sales will take place but we expect to make the first sale of the New College lands sometime during the months of September or October.

After we have prepared the information which must be set out in pamphlets for public distribution and the same are printed, it will be necessary for a sufficient time to intervene between the preparation of the pamphlets for distribution and the date of sale so that the advertising matter can be given a wide distribution. It is the intention of the commissioners to advertise the sale of all of the lands very thoroughly in order that the state may have the advantage of the presence of a large number of people at the place of sale. The department will prepare the necessary literature concerning the lands to be sold as rapidly as possible and distribute the same to the public.

TO CELEBRATE OPENING.

Kiowa-Comanche Country Plans Two-Day Meet at Lawton.

Lawton, Okla., July 10.—Plans have been completed and funds are being raised by the Lawton chamber of commerce to hold a two days' celebration, August 6 and 7 in honor of the eighth anniversary of the opening of the Kiowa-Comanche country. This will eclipse all former celebrations held here and the towns of Hobart, Anadarko, Chattanooga, Frederick, Walters, Temple, Randlett and Grandfield have agreed to participate.

One of the features of this year's celebration will be a competitive Indian dance between the Comanche, Kiowa, Wichita, Caddo and Apache Indians. Large numbers of beavers will be given as prizes. Col. Dick Banks of Cache, Col. R. A. Sneed, and Dick Sanders of Lawton, who have been with the Indians since before the opening of the new country, have been interested in inducing the redskins to join and headed by Chief Quannah Parker of the Comanches, more than one thousand Indians will assemble for the dance. It will be given on the afternoon and night of the sixth.

CENTRAL NORMAL RECORD.

Sixty-Four Graduates During Year. Teachers Take Examinations.

Edmond, Okla., July 10.—Judge Henry M. Furman of the court of appeals delivered an address to the class graduated from Central Normal Friday evening, when twelve diplomas were presented. Fifty-two were graduated in the first division of the class on May 29, which makes the total number of graduates in this year's class sixty-four.

The summer term at Central Normal closed Friday. The total enrollment for the term was 820 or just double that for last year. Five hundred and ten teachers took the examinations here on July 7, 8 and 9. On account of the fact that a large majority of these have had actual experience in teaching, it is expected that fully 90 per cent of this number will be successful in their examinations.

A SEMINOLE BAD MAN.

Comes to Ada, Plays Tough and Gets the Limit Before Justice Brown.

One Joe Huckleby, who hails from Seminole, came to Ada Saturday, tanked up on bad booze and proceeded to take in the town. He was first apprehended in the shoe shop of Jim Baze down on West Main street where he was swearing and raising a rough house in general. Deputy Walter Goyne made the arrest but had to call for help to land his man in the county jail. Huckleby appeared before justice Brown this morning to face a charge of using obscene language in the presence of ladies, which is a violation of law and a crime against the peace and dignity of the state. He plead guilty to the charge and was given the limit, which was a fine of \$100 and thirty days in jail.

He was committed to jail with the understanding that he should serve out his thirty days, and at the end of that time, if the fine and cost was not paid, he should work it out on Pontotoc's public highways.

He was told by the court that his tactics were not adapted to a civilized community and that they would not be tolerated in Ada.

TO ENFORCE INCOME TAX.

M. E. Trapp Wants to Increase the Educational Fund With Money.

M. E. Trapp, state auditor, has started a campaign to have the state law relative to income tax, rigidly enforced and the common school fund thereby materially increased. Mr. Trapp has written to all county superintendents requesting them to send him the names of the school district officers. The auditor is anxious to secure these names that he may keep in close touch with every school district, and check up the assessment lists of the county assessors, to see that none eligible have escaped the income tax law, which provides that the tax on incomes shall go to the common school fund.

The state auditor writes in part: "The purpose for which I desire these names is one which will meet the approval of every educator in the state, I am sure. We have an income tax law the proceeds from which go to the common school fund, which if properly enforced will add thousands of dollars annually to the amount apportioned to the several districts of the state. For some reasons assessors seem to have to a large degree ignored this law, and it is my purpose to get into communication with the district school officers and other persons interested in education, in order that their efforts may be enlisted with mine, toward seeing that this law is fairly enforced and the funds collected."

SUNDAY THEATERS WIN.

Court Held There Was No State Law to Prevent.

Muskogee, Okla., July 10.—Every playhouse in this city will be opened Sunday night as a result of an opinion given by Judge Bailey here today stating that there is no state law prohibiting Sunday shows. The opinion was given in the case of the thirty managers, ticket sellers and actors, who were arrested last Sunday for running the theaters.

Just what action will be taken now by those active in the prosecution is not known, but it is understood they will not let the matter rest at the first attempt to close the playhouses on Sunday. A more determined fight is expected.

Money for Indians.

Lawton, Ok., July 10.—Hundreds of thousands of dollars will be paid out to the Indians of Southwest Oklahoma soon, according to announcement received here, it being estimated that approximately \$7 per capita will be paid to the Comanches and Kiowas, including the leased land payment, which begins Monday next, and the regular quarterly payment from the department. Counting both lease money and the regular payment, which is now equal the present payment will almost equal the great special relief payment of last year, secured through the efforts of Congressman Scott Ferris, in which \$375,000 was distributed.

The Texas Dep't. Store Annex

The fast growing mammoth Texas Department Store and that the 3 buildings, double decked, that they now occupy is inadequate to carry their immense stock and have each department complete within itself, and have taken a lease on the 150 foot Ketch building. The annex will carry a new and complete furniture stock including carpets, matting, linoleums, rugs, wall paper, queensware and etc. With this department will also be added a new, modern and "up to the times" undertaking parlor, where no effort or expense will be spared in making it complete; also a full line of picture moulding and an art department. We feel that in buying our goods as we do, in large quantities, that we are in position to beat the price and in our annex you will find exceptional bargains. We have recently bought three cars furniture, namely, a mixed car, a straight car, double cane and dining room chairs and a straight car iron beds, spring cots, steel couches and davenport. In buying this way one is bound to get the price regardless of what the "other fellow" says, and you save money by doing business with us. TEXAS DEPARTMENT STORE.

P. S.—"Hi Ki", Charlie Parrish (as he is familiarly known) will be in charge of this department in our annex. Charlie is a jolly, good natured fellow and tells us he will make good and save the trading public money as the prices we are selling goods at is far less than what he has seen or ever heard of. This is easy, though when you consider the quantities and quantities we have. Charlie is formerly of Roff and has a large acquaintance throughout this section of Oklahoma, he is considered ONE of the best furniture men and undertakers in Oklahoma, having been in the business for himself and making a success of it. Bryor to his business experience in Roff he was with the Street & Reed Furniture and Undertaking Co. of Oklahoma City, which within itself is an endorsement. Hoping to see you in our furniture, undertaking and queensware emporium, yours,

CENSUS OUTLOOK FOR OKLAHOMA

NEW STATE EXPECTS TO SECURE
TWO MORE CONGRESSMEN.

Congressional Boundaries Will Be
Changed According to the
New Count.

Guthrie, Ok., July 10.—The federal
census to be taken next year deter-
mines the number of representatives
each state will have in congress for
the ensuing ten years, and Oklahoma
expects to secure two or more addi-
tional members. The enumeration will
as well form a basis for apportion-
ment of the legislative districts and
perhaps for revising the judicial dis-
tricts on a population basis.

People of a state are rarely satis-
fied with a federal census. The work
is necessarily limited in time, and
following it there are a multitude of
instances alleging short counts with
showings how the state or the com-
munity has been wrongfully affected.
Such feeling gave rise to a territorial
law, which the state inherited, re-
quiring an enumeration by county as-
sessors every spring. Following the
census of 1908, however, the Legis-
lature placed the law on a ten-year
basis, making the state enumeration
follow that of the federal govern-
ment every five years. In consequence
the census will be taken in this way.
Federal, 1910; State, 1915; Federal
1920; State 1925, and so on.

Congress made the first apportion-
ment for Oklahoma when it passed
the enabling act, on a basis of the
1900 count, or 194,182 people for ev-
ery congressman, although seven
years had elapsed between the census
taking and the admission of the state
to the union. No account was taken
of the approximate gain in popula-
tion, neither was a census taken to
establish the number. Districts in
known democratic territory, as it
resulted, contained in some instances

100,000 more people than they did in
known republican territory.

A special census was taken un-
der orders of the president in July,
1907, to show whether the constitu-
tional convention had been fair and
equal in its legislative apportionment
and not only did the census bear out
the districts but demonstrated the
state to be entitled to seven instead
of five congressmen.

When the general census is com-
plete congress determines the num-
ber to each congressional district
by dividing the aggregate number by
the number of representatives to sit
in the house. The result may vary
considerably, according to the in-
crease in population, and a shifting
of the house membership, but as a
usual thing nearly all states gain in
some representation. When the ratio
is once established it is subject to
no appeal.

For the seven years following the
federal census of 1900 the possibili-
ties of statehood increased the popu-
lation of the two Territories 623,786
or 89,112 per year. In 1908 the an-
nual increase dropped to 31,984, ac-
cording to the county enumeration,
which gave the state only 1,445,261
people, or an increase over the spec-
ial census of 1907 of 2.1 per cent.
Unless there is a change in con-
ditions the state will do no more than
to increase normally during 1909 and
the early part of 1910, which would
make 1,507,229 a fair estimate for the
showing in 1910.

Such an increase will entitle the
state to seven or eight congressmen,
based upon the ratio congress fixes.
A gain of two or three means con-
siderable activity for the Third legis-
lature, which revises the congress-
ional lines, during the term begin-
ning January, 1911, and the politi-
cal character of the legislature will
go far in determining the character
of the congressional districts. Al-
ready there is talk of overhauling the
congressional lines on a six-district
basis, and electing one or two con-
gressmen at large.

Rains in North Oklahoma.

Guthrie, Ok., July 10.—Heavy rain
fell in portions of Northern Okla-
homa last night and this afternoon,
but did not extend as far south as
Guthrie. Excessive heat prevailed for
the last twenty-four hours and short-
ly after noon today the local read-
ing was 104. For the eleven stations
representing the government in Ok-
lahoma the state average on Friday
was 102 degrees, two degrees high-
er than the day before and the same
number in excess of the Texas aver-
age for Friday. The government's re-
port was 105 at Durant, 104 at Chan-
dler, 108 at Shawnee and Tulsa, 101 at
Stillwater. The reading at Oklahoma
City today was 100 degrees. The
highest record heretofore was in
1901, when the state average for forty
days in July and August was 95
degrees.

Independent Companies of Several
States Plan Consolidation.

Parkersburg, W. V., July 10.—Up-
on the outcome of a conference be-
ing held here tonight depends a
gigantic consolidation of the inde-
pendent telephone companies of the
United States. Representatives of
Pennsylvania, West Virginia, Ohio,
Indiana and Illinois independent
telephone concerns are in conference
looking toward the incorporation of
the National Telephone corporation of
New York, with a capitalization of
\$100,000,000.

For months there have been rum-
ors that the local and Pennsylvania
companies would soon reach some
sort of an agreement, and work in
conjunction.

LITTLE BOBBIE'S PA

By WILLIAM F. KIRK

There was trubbel up to our house
last nite about a piano, the piano was
in the flat right over our flat, & the
lady was all the time playing. When
Pa calm hoam eh had a hed ake, & his
eyes looked heavy.

Poor deer, sed Ma. Poor darling
boy. How hard you do work, Ma sed,
& how few thoughts I give to yure
silent hours of faithful endeavor down
in that horrid offis. I called you up
to-day, when I was feeling sorry for
you, & thay sed you had just went
out, but that you would be rite back.
My poor darling, sed Ma, you must
take a long vacashun sum of these
days. It must be terribul strain on
you, this con-stant thought.

Pa looked at Ma kind of funny. Pa
isnt used to hearing Ma talk that
way & he kep looking at her. Do you
meen it? sed Pa, finally.

Of course I meen it sed Ma. Deer
knight wich calm & took me off to
this en-chanted palace, yure welfare
is ever first in my thought. For
you I have lived, Ma sed, & for you
I shall die. Bless yure deer tired
eyes, sed Ma, I wish that terribul pla-
no up stares wud stop pound-
ing away, & give you a chanst to rest.
I knew wen that young hussey moved
in that we wud have no peace or
rest.

Is she a young hussey? asked Pa.
She is, sed Ma. Vary young? Pa
asked. Well, sed Ma, she is passed
the broiler age, but she still retains
traces of her girlish buty. Why do
you ask? Ma sed.

Never mind, sed Pa. I am going
up stares to interrogait her about why
she leaves herself play the piany at
all hours of the nite. I wuddent cair
so much, sed Pa, if she played the
old classick peeces, like Liszt's Rap-
sodas or lme afraid to go hoam in
Twilight, but if she is disturbing my
lving wife, I want to know it.

The worst thing that she plays, sed
Ma, which gits on my nerves, is I
Love you as I Never Loved Beefoar.
I ain't vary keen for that kind of
rapsody, sed Ma, & I wish she wud
cut it out. Did she sing that awful
ballad? sed Pa. That old chestnut?
Wait till I go up stares & re-buke
her about it. In the first place, Pa
sed, it is not good lyrick. That stuff
about Since first I met yo on the
village green is a rank appeal to the
mushy side of the hart & brane, Pa
sed, & that line Cum to me luv, or
Luv's sweet dream is oer, Pa sed, is
all to the bush league.

Then Pa went up stares & wen he
was gone Ma kep on talking to me
about the young lady wich was up
stares & how fooliah she was. I hed
yure father will cell her down good
& hard sed Ma, good & Plenty. That
is one (1) thing about yure father,
sed Ma, wich I have to respect. He
certainly will not stand for anybody
wich harms my peace of mind.

You see, Bobbie, sed Ma, I often
have to re-buke your father wen he
is a littel bit wild, but he has a kind
& honest hart wich beets under neeth
his vest, & he is always trying to do
the best he can for you & me. He is
a awful rounder, I will admit, sed Ma
& he often throws his sense of Duty
to the winds, & he wares the saim
collar two (2) days wen he cud git
a new one (1) for the price of a sing-
el li-bashun, but otherwise he is all
rite, Ma sed, & you & me ought to
luv him vary much. He will be back
down stares in a minnit, Ma sed, af-
ter having called that piano playing
lady down, & then we will both tell
him how good he is to us. Who is
that singing? sed Ma, all of a sudd-
ing.

It was Pa's voice. This is what he
was singing:

I luv you as I never luvd bee-foar.
Since first I met you on the village
green.

Cum to me onst aggen or all is oer,
I luv you as I luvd you wen we was
sweet sixteen (16).

Then Ma rapped hard on the steam
pipe & Pa calm rite down stares.
Ma is going up to see the young lady
plano player herself, to-morrew morn-
ing.

Rare Tablet Unearthed.

A rare tablet telling of history's
dawn, and said to indicate civiliza-
tion older than that of Egypt, has just
been unearthed from Chaldean. It is
held by no less an authority than
Prof. Friedrich de Litzsch, the fa-
mous German Assyriologist, & belong-
ing to the oldest hieroglyphic period, and
is taken as an indication that Chal-
dean civilization may have preceded
the earliest Egyptian. On the stone
are a number of photographs, writings
by means of pictures. A celebrated
student of Assyriology, Father V. E.
Niel, declares that it is one of the
rarest finds in recent years, and
opens up a much mooted question con-
cerning the earliest civilization of
man. Several millenniums must have
elapsed before the pictograph gradu-
ally developed into the cuneiform or
wedge shaped, arrow headed charac-
ters.

Look of Old-Fashioned Fisherman.

The old-fashioned angler who fishes
with a birch or reed pole without
joints or reel and uses plain angle
worms for bait still catches fish. One
of the finest trout that has been taken
from Fishing creek, Columbia county,
in recent years was caught by George
Reimley of Fayetteville while fishing
for suckers.

It was a brook trout measuring 20
inches long and weighing 1 1/2 lbs. and
had a red and white color and a
red head. —Philadelphia Record.

Special Notice.

Commencing today, July 12th, our prices for cash ice bought off of wagon will be 60c to every body, both in residence and Main street, but Main street ice will be 40c where coupon books are bought. We are obliged to change drivers from time to time and ask you to please be careful and get your cards up when ice is wanted. If cards are not up you may be missed. Kindly have money or coupons ready when ice is put in as all ice must be settled for on delivery, also on buying coupon books have the money ready to pay for book as they are charged to the drivers and they must account for same, therefore if the drivers refuse to leave you ice or books without the money do not blame them, as we are running our business on a cash basis.

The extreme hot weather struck us unprepared the same as other plants. There is an ice shortage all over the country. We are doing our best, and so far have served our patrons better than other plants. We are trying to make arrangements to better our delivery service, and hope same will be completed in a few days. We are yours truly,

Interesting News.

Oklmulgee, Okla., July 12, 1909.—Texas Department Store, Ada, Okla. Gentlemen: All I can do or desire to do is to call your attention to our city as a splendid point for a business similar to what you are conducting in Ada. The two rooms, each 25x90, or about that length, are here vacant. Five store rooms in post-office block, and in half block of street, car corner, track now being laid.

I am a "tenderfoot" having been here since May 1. We have 238 business and professional firms, so says the directory. The merchants, who seem to be the ones who do things, would not be sufficiently interested as to give you a location, and invest \$15,000 in the concern. Probably would give more to have you stay away. You would do great business here; greater than at Ada, I think. I hope you will look it over. Respectfully,

C. S. BRYDIA.

Pete Cooper of Roff was a business visitor in Ada, Saturday afternoon.

Mr. W. J. Clawson, lately of Holdenville went to Konawa this afternoon where he will be employed in the conduct of the Chief-Leader.

Corn Crop Conditions.

Sulphur, Ok., July 10.—Owing to the continued extremely hot weather, the farmers begin to have a good deal of concern about the corn crop. Unless a good rain falls within the next few days, what has up to recently promised to be a bumper corn crop will be cut short. Cotton is still in good condition, but the presence of the boll weevil in almost every field leaves little to be expected from that crop.

There is more Catarrh in this section of the country than all other diseases put to gether, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. TUMOR OF FOUR YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

Lindley, Ind. — "Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live." — Mrs. MAY FRY Lindley, Ind.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give confidence and hope to every sick woman.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

REVENGE.

The Professor—I've been a vegetarian all my life; from now on I'll eat nothing but beef!

Hypothetical.

"Let me," said the stranger at the baseball game, "ask you a hypothetical question."

"Go ahead."

"Supposing that I had ten cents, and desired to witness an exhibition of the manly sport inside the enclosure, the price being 25 cents; and supposing that I were to approach you for 15 cents necessary to fruition of my hopes, what would you say?"

"That's easy. I'd say: 'Lend me the 10 cents as I have just 15 myself, and am a rabid fan.'"

Thus, after all this subtle eloquence, there was nothing doing.

A Broad Discrimination.

There is an elder of a certain church up-state who thinks that things are only half done or not well started in which he has no voice. At a prayer meeting he offered thanks for the safe return from their vacation of the minister and his wife. With proper dignity and in a loud voice he said: "O Lord, we thank thee for bringing our pastor safe home, and his dear wife, too, O Lord, for thou preservest man and beast."—Success.

No Others

It is in a class by itself. It has no rivals. It cures, where others merely relieve. For aches, pains, stiff joints, cuts, burns, bites, etc., it is the quickest and surest remedy ever devised. We mean Hunt's Lightning Oil. 50c and 25c bottles.

A Gotham coroner's jury found that a child had come to its death while undergoing a surgical operation a surgeon's knife slipping and cutting an artery, and recommended that the hospital surgeons be more careful in the future. It could easily be seen that this jury was drawn from a nation of humorists.

Missouri, which is a great producer of that valuable beast, the American mule, rejoices that the price of the animal is going up. In these days of motoring, trolleying and other advanced methods of transit, it is something to be proud of that the American mule more than holds his own. And sometimes it is quite a task to hold the American mule.

The girls employed in the stores in the shopping district of Chicago have organized a war on that queer and useless class of humanity, popularly known as "Street Johnnies." They will be ably assisted by a "Mashers' Police Squad," especially detailed to the duty, which need of such service shows another anomaly in our higher civilization.

The sight of a woman performing the heavier kinds of labor once deemed fit only for men is still sufficiently novel. Yet the census returns show that nearly 25,000 women are employed as blacksmiths, brick-makers, wood choppers, stovemakers and porters. Sentiment may depreciate their increase of numbers in industries requiring strength and endurance. But where they possess the requisite physique and are under no illusions as to degrees of respectability in labor it is not apparent why they should not engage in masculine occupations as freely as they like.

INTOLERABLE ITCHING.

Fearful Eczema All Over Baby's Face—Professional Treatment Failed.

A Perfect Cure by Cuticura.

"When my little girl was six months old I noticed small red spots on her right cheek. They grew so large that I sent for the doctor but, instead of helping the eruption, his ointment seemed to make it worse. Then I went to a second doctor who said it was eczema. He also gave me an ointment which did not help either. The disease spread all over the face and the eyes began to swell. The itching grew intolerable and it was a terrible sight to see. I consulted doctors for months, but they were unable to cure the baby. I paid out from \$20 to \$30 without relief. One evening I began to use the Cuticura Remedies. The next morning the baby's face was all white instead of red. I continued until the eczema entirely disappeared. Mrs. P. E. Gumbin, Sheldon, Ia., July 13, '08." Potter Drug & Chem. Corp., Sole Props., Boston.

The Retort Crushing.

The late Peleg W. Chandler, who was hard of hearing, was one of the most effective of war-time speakers. Every occasion illustrated his eloquence and demonstrated the quickness of his repartee. At one meeting he was frequently interrupted by a blackguard at the rear of the hall, who kept shouting: "Why don't you go yourself?" For a time Mr. Chandler's deafness prevented him from catching the exact nature of the interruption of which he had been for some time conscious. At last, Mr. Chandler caught the words of the disturber. Then, in the mildest accents, which emphasized the force of the words, he said: "Young man, if my ears were as good as yours, and as long as yours, I shouldn't be here tonight!"

Beyond Expression

G. W. Farlowe, East Florence, Ala., writes: "For nearly seven years I was afflicted with a form of skin disease which caused an almost unbearable itching. I could neither work, rest nor sleep in peace. Nothing gave me permanent relief until I tried Hunt's Cure. One application relieved me; one box cured me, and though a year has passed, I have stayed cured. I am grateful beyond expression." Hunt's Cure is a guaranteed remedy for all itching diseases of the skin. Price 50c.

A Tall Bear Story.

"Why, once, do you know, I found a bear inside a hollow log. Well, of course, I couldn't get at him to shoot him, and the log was too heavy to move. I didn't know what to do. So at last I thought of cutting four holes in the log, about where the bear's feet must be, and I got his paws through slick. Then I tied a rope about the log and made him walk with it into camp. And—would you believe it?—we had all our food and all our fuel for the winter out of that one deal!"—Outing.

Patriarch Had Something to Say to Man Driving a Big Red Automobile.

The Stranger—That's a singular looking old fellow sitting out there on the fence. He seems quite a patriarch.

The Native—Yep. He's been sittin' thar for three years.

Three years! Good gracious! There must be an interesting story involved in this. Is he waiting for something?

Yep. He's waiting for a tall feller drivin' a big red automobile. He came 'bout three years ago an' runned over the old man's calf. Th' feller stopped an' said: 'What's the damage?' an' the old man said, 'Bout 'leven dollars,' and the feller gave a twenty an' drove on. An' th' old man's sittin' over there waitin' for him to come back."

"Eh! Poor old chap. Forgot to thank the man, I suppose. But what's he got that shotgun for?" "The twenty th' feller gave him was bad."

WHEN YOUR BACK ACHES

It is a Warning That the Kidneys Are Sick and Need Help.

A bad back makes every day a dull round of pain and misery. It's a sign

the kidneys are sick and cannot keep up their never-ending task of filtering the blood. Lame back, backache, dizzy spells and urinary disorders are warnings that must not be overlooked. A. G. Smith, 405 E. Mills St., Liberty, Mo., says: "I was racked with pain, stiff and lame, had dizzy spells and a terrible condition of the kidney secretions. I got so miserable I went to bed, but the doctor did not do anything for me and no one expected me to recover. Doan's Kidney Pills first relieved, then cured me, and I have had no kidney trouble for seven years since."

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Consumption Permanently Cured.

That consumption can be permanently cured is demonstrated by some figures published by Dr. A. Van Beneden of Belgium, who says that 75 per cent. of the patients treated in the Bourgoumont sanatorium in 1903-4 have continued, four years after treatment, to improve, and are in a condition to return to their regular occupations.

What Did He Mean?

Mr. Brown and his family were standing in front of the lion's cage. "John," said Mrs. Brown, "if these animals were to escape, whom would you save first, me or the children?" "Me," answered John, without hesitation.—Everybody's Magazine.

With a smooth iron and Defiance Starch, you can launder your shirtwaist just as well at home as the steam laundry can; it will have the proper stiffness and finish, there will be less wear and tear of the goods, and it will be a positive pleasure to use a Starch that does not stick to the iron.

He is a man of power who, when all his fellows are swayed by some ambition or passion, remains calm and unmoved.—Creston.

Never Buy a Watch by Mail

No one can sell a watch by mail that will give satisfaction—for the watch that keeps accurate time in your pocket, loses or gains in another man's pocket. Even the finest watch will fail as a perfect time-keeper unless it is adjusted to meet the individual requirements of the person who is to carry it.

A South Bend Watch

Frozen in Solid Ice Keeps Perfect Time. All the skill and facilities that money can buy go toward the construction of each South Bend Watch, and grade for grade it is superior to any other watch made. Yet even a South Bend must be adjusted to the one who is to carry it. South Bend Watches are sold only by reliable jewelers who properly adjust them to the individual. You cannot buy one from any mail-order house. Ask your jeweler to show you a South Bend Watch. South Bend Watch Co. South Bend, Ind.

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."
